

Name _____

Manufactured changes

Humans are able to take a raw material found in nature, such as wood, and change it into something completely different. Wood can be manufactured into paper.

▲ Below is a group of things. For each object decide if it is a raw material or whether it has been changed (manufactured) in some way. Write your answer underneath each picture. You may need to discuss your ideas with a friend or use reference books to help you.

 glass	 diamond	 oil	 steel	 iron ore
 gold	 plastic	 wool	 flour	 aluminium
 coal	 salt	 milk	 petrol	 silk
