

Polar ice

- Look at the pictures and discuss what you see with a friend.

1. What is the difference between the two pictures of the polar ice cap at the arctic?

2. Why might there be this difference between the summer and winter? Explain your ideas.

3. What living things might be affected when the ice melts?

4. List some questions about the polar ice cap. Use the wordbank to help you. Use the back of this sheet for writing if you need more space. Aim to get more than ten!

What What if Why How When Who

I can answer and ask questions about polar ice.
