

# The namin' game

The first thing all pirates needs is a name. I got mine from the famous flag that we pirates fly when we is at sea. They is usually memorable our names, so we become fierce and feared!

- Cut out and complete the spinners to find the perfect name combination for you.
- Choose six bright colours and use them to colour in the first spinner.
- Pick six fierce living creatures and draw them onto the second spinner.
- Select six pirate items of clothing and write them onto the third spinner.

Now, spin away me hearties! Spin the spinners to find a name you is happy with. Some, such as 'Old Johnny Blackhawk', combine a colour with an animal. Others, like 'Toothless Bert Greenboots', use a colour with the name of a piece of clothing. Some use the name of an animal with the clothing - it's up to you. But you've got to think careful, mind, you don't want to be a laughing stock - just ask Captain Codpants!
