

The Greeks in evidence

● We know about the Ancient Greeks from evidence. Cross out the sources of evidence that are *not* available to us for the Ancient Greeks.

The Greeks made beautiful pottery. The best came from Athens. The oldest is decorated with geometric patterns, but later, figures were added.

The Athenians created **black-figure ware** – black figures on a red (clay) background.

Around 530BC, more intricate **red-figure ware** was made – red (clay) figures on a black background.

● The pictures on the pots give us clues about life in ancient Greece. Write detailed descriptions of the pictures on these two pots. Be a detective – what do the pictures tell us about the Greeks?
