

# Pop-up popstars

Here's our step-by-step guide to creating your pop-up popstars from the A2 poster

1. Carefully cut along the dotted outline around each figure using a craft knife.

2. Don't cut along the top of the white tab on the character's head or around the shoes.

3. Fold the page in half along the horizontal line.

4. Fold the bottom of the white tab down, and the top of the tab up.

5. Fold the point up where the bottom of the character's legs meet the feet.
