

Autumn Investigation 1

Can you find these fruits and berries?

Blackberries

picture

Squishy, soft, black berries growing on brambles in hedges, verges or in the woods.

Conkers

picture

Split, brown, spiky cases with brown conkers inside, growing on horse chestnut trees.

Holly berries

picture

Soft, red berries growing on female holly bushes.

Hawthorn berries

picture

Red, fleshy berries growing on hawthorn trees.

Ash seeds

picture

Clusters of brown seeds with long wings growing on ash trees.

Beech nuts

picture

Small, brown nuts growing inside brown husks on beech trees.

Elderberries

picture

Clusters of small black berries growing on elder trees.

Acorns

picture

Brown nuts in cups growing on common oak trees.

Silver birch seeds

picture

Brown, oval-shaped catkins growing in clusters on silver birch trees.

Sycamore seeds

picture

Brown pairs of seeds joined together like wings and growing on sycamore trees.
