# Email and e-messaging

Create five new character cards – draw and write the name of who the email or e-message is from and, referring to the key, the type of message they would send. Cut the cards out and arrange them in order of risk, on the 'Risk-ometer', from low to high. Colour code the blank boxes of the 'Risk-ometer', according to risk. One character card has been designed for you.

## Risk-ometer

<b>LOW</b>						<b>HIGH</b>
