

Name _____

Date _____

Three in a row

Pick a number card.

Work out what number you need to add to the number on the card to make ten.

Cover that number on the grid.

1	10	3	8	7	8
8	1	5	2	2	6
7	1	10	3	9	7
6	3	9	6	10	5
4	5	9	4	2	3
5	9	1	4	4	7

Dear Helper

This game will help your child to learn all the pairs of numbers with a total of ten. At first, your child might need to use their fingers or some cubes to help them work out what number they need to add to the number on their card to make ten, but with practice they will begin to recall the number facts from memory.
